

To: Community Representatives

From: Janyce Hedetniemi, Director
Office of Community Liaison
National Institutes of Health (NIH)

Date: March 2002

NOTES FROM THE DIRECTOR, OFFICE OF COMMUNITY LIAISON

I want to express my appreciation to the community for its patience as NIH works through security, traffic management, and construction issues. Recently, complaints about construction along Old Georgetown Road were brought to our attention. As soon as my office learns of these issues, we work to resolve them. I want to assure you that within NIH there is sensitivity on the part of its planning, engineering, and construction teams to work with the local community to resolve any issues.

As you are aware, the traffic patterns have been altered around the NIH campus. These changes have affected the bus patterns to the Medical Center metro stop and the Kiss and Ride parking area. NIH has been working closely with representatives of the Washington Area Metropolitan Transit Authority to minimize disruption to this area and is returning approximately 10 parking spaces for passenger pickup and drop-off. Site work will begin shortly to reestablish two disabled parking spaces and two additional short term/standing parking spaces. We will continue to assess this area for additional parking options and make adjustments as necessary.

Some of you may have seen a recent article in the local media that contained inaccurate information about NIH's study of infectious diseases. The article described NIH as having built a lab to handle anthrax, the Ebola virus, and other such diseases. In fact, this facility has been part of the NIH intramural research facilities program for more than 25 years. It was renovated in 1998 for research on multidrug-resistant tuberculosis in response to a congressional mandate. A correction to this article was made by the local newspaper.

NIH will resume work on its 2000 Master Plan Update. Last month, the Community Liaison Council heard a presentation on security planning from the NIH Office of Research Services. NIH will be looking to the community for ideas and suggestions in order to achieve the following security objectives:

- Ensure the safety and security of the people working, visiting, and conducting business at NIH;
- Safeguard and protect NIH's intellectual property, which has important, medical, social, and strategic implications;
- Preserve NIH's reputation for being the world's leading biomedical research institution; and
- Minimize the vulnerability of NIH facilities to acts of terrorism or other forms of violence and damage.

My office is again gearing up for this year's Share the Health event, which will be held on Saturday, October 26, 2002. Please call Jennie Kirby at 301-496-3931 with any topics you would like to see addressed.

The Community Liaison Council (CLC) will hold its next meeting on **Thursday, March 21, at 4 p.m.**, in Building 45, Room D on the NIH campus.

NIH CAMPUS NEWS AND ACTIVITIES

Dr. Nakamura To Serve as NIMH Director

NIH Acting Director Ruth Kirschstein, M.D., recently appointed neuroscientist Richard K. Nakamura, Ph.D., as acting director of the National Institute of Mental Health (NIMH). Dr. Nakamura's appointment follows the resignation of former Director Steven E. Hyman, M.D., who left to become Provost of Harvard University.

Dr. Richard K. Nakamura

Dr. Nakamura joined NIMH more than 25 years ago, eventually becoming its deputy director in 1997. In this role, Dr. Nakamura revamped both the extramural and intramural research programs at NIMH. He led efforts to make research information more accessible to the public and to Congress. Last year, Dr. Nakamura received the 2001 NIH Asian/Pacific American Organization's Outstanding Achievement Award in Administrative Work and the Department of Health and Human Services Secretary's Award for Distinguished Service. He has served on many committees and worked on several projects with the U.S. Surgeon General.

Dr. Nakamura holds a B.A. from Earlham College, an M.A. from New York University, and a Ph.D. from the State University of New York at Stony Brook.

NICHD Publishes New Guide for Parents

Parents now have a new tool to help them raise happy, healthy children. The National Institute of Child Health and Human Development (NICHD) recently released a new, free booklet, *Adventures in Parenting: How Responding, Preventing, Monitoring, Mentoring, and Modeling Can Help You Be a Successful Parent*. The booklet provides strategies and stories for effective parenting techniques based on 30 years of scientific research. The booklet is not a how-to guide; it suggests things that parents can consider when making decisions about their children. To order the booklet, call the NICHD Information Resource Center at 1-800-370-2943 or visit the NICHD Web site at <http://www.nichd.nih.gov>.

Sign Up for Free Mini-Med School

If you wonder what it's like to go to medical school but don't have the science background, then the NIH Office of Science Education has a program for you. The Spring 2002 NIH Mini-Med School brings leading scientists together with people that have little or no experience in science and medicine. For nine weeks, you can learn about microbiology, immunology, and hot public health topics such as infectious diseases and hazardous biological agents, all for *free*. Each lecture builds on the one before it, and students receive personalized "graduation" certificates after the last lecture.

The Spring 2002 NIH Mini-Med School is tentatively scheduled to begin on April 4. Sessions will be held in the Natcher Auditorium, Building 45, on the NIH campus, on Thursdays from 7 to 9 p.m. through May 30. Space is limited, so register now! You can register online at <http://science.education.nih.gov/minimedreg> or by phone at 301-496-0609. For more information, visit <http://osedev.od.nih.gov>.

NCI Offers Free Cancer Prevention Seminar Series

Learn more about cancer prevention by attending the Colloquia Series sponsored by the National Cancer Institute's Division of Cancer Prevention. Seminars run through June 2002 and are open to the public. The Colloquia Series is held on Wednesdays, from 11 a.m. to noon, at 6130 Executive Boulevard, Conference Room G, in Rockville, Maryland. All seminars are free.

Seminars in March are as follows:

- March 6** **Do Movies Influence Adolescents to Smoke?** by James Sargent, M.D., Dartmouth-Hitchcock Medical Center
- March 13** **Can We Make Smoking Safer for 50% of Smokers Who Never Quit?** by John R. Hughes, M.D., University of Vermont
- March 20** **Does the Internet Have a Role in Cancer Prevention and Control?** by Victor J. Strecher, Ph.D., M.P.H., University of Michigan Cancer Center

Youth Scavenger Hunt at Strathmore

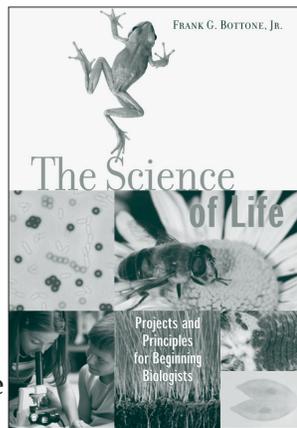

Mark your calendars for the Second Annual Montgomery Youth Works Scavenger Hunt on April 20. Compete with more than 600 hunters for fun and prizes. Hunters can search for challenging clues individually or in teams of up to 10 people. A grand prize and other awards and gifts will be presented at an awards ceremony beginning at 1 p.m.

Sponsored in part by NIH, the hunt takes place from 8:30 a.m. to 3 p.m. at Strathmore Hall Arts Center, located at 10701 Rockville Pike in North Bethesda, Maryland. Register, by mail, by fax, in person, or online at <http://www.montgomeryyouthworks.com/scavengerhunt/2001/registration.asp>. Mail and fax registrations are \$20 per person before 5 p.m. on April 5. Walk-in registrations or registrations completed after 5 p.m. on April 5 are \$25 per person.

Montgomery Youth Works ensures successful transitions from school to careers by training young people and matching them with employers. Proceeds from the Scavenger Hunt will help this organization to continue its work.

NIEHS Researcher Publishes Notable Book for Children

Frank Bottone, a biologist at the National Institute of Environmental Health Sciences (NIEHS), recently published a science book for children. That book, *The Science of Life: Projects and Principles for Beginning Biologists*, is now on the "2001 Smithsonian's Notable Books for Children" list.

The book, written for children aged 9 years and older, presents science exercises that use objects in the home or at school. Children can learn how bread mold forms, grow bacteria and find ways to stop it, and compare insects that fly at night to those that fly during the day. Bottone also includes a glossary, an index, and resources to help children further their interest in science.

NIMH Web Site Wins Top Rating

The Tufts University Child & Family WebGuide awarded a five-star rating to a National Institute of Mental Health (NIMH) Web site, <http://www.nimh.nih.gov/publicat/childmenu.cfm>, for its child and adolescent mental health information. The site has made research information accessible to child development experts, parents, and other persons who work with children. More than 7 million visitors hit the site in December.

Tufts University developed the not-for-profit WebGuide in collaboration with the Society for Research in Child Development. Parents, childcare professionals, and child development experts also participated in the guide's development. The WebGuide lists and evaluates Web sites that provide credible information on child development. The guide's screening process is extremely rigorous, and only a small percentage of Web sites make it to the list. The NIMH site is among the 10 percent of successful sites to receive a five-star rating.

Satellite Broadcast To Discuss Environmental Risks to Children

Children are more likely than adults to suffer from environmental hazards, and information is key to understanding and addressing these risks. Although many Web resources address environmental health risks to children, finding high-quality, authoritative sources online can be difficult.

On March 21, 2002, the National Library of Medicine (NLM), along with its partners in the Partnership for Information Access for Public Health Professionals, will address this problem by sponsoring a live, interactive, satellite broadcast titled, "Children's Environmental Health Information Resources." The program will discuss selected online resources and important children's environmental health topics such as pesticide exposure, lead poisoning, and asthma triggered by the environment.

To participate or for more information, visit <http://www.phppo.cdc.gov/PHTN/child-env>, or call 1-800-418-7246.

NIA Offers Health Information in Spanish

Reliable health information on conditions such as diabetes, heart disease, cancer, and high blood pressure is now available in Spanish from NIH's National Institute on Aging (NIA). NIA's award-winning *Age Pages* provide science-based health information to older persons and their families. Topics include disease prevention, medicines, and weather-related health hazards. The *Age Pages* also provide readers with addresses and phone numbers for additional resources. For free copies of these leaflets, call the NIA Information Center on weekdays between 8:30 a.m. and 5 p.m., EST, at 1-800-222-2225 or TTY 1-800-222-4225. Information specialists are available to respond to requests in Spanish as well as in English.

Circus Night Helps NIH Charities

Go to the circus and give to charity at the same time. The Ringling Brothers and Barnum and Bailey Circus is holding a Children's Premiere Night on Wednesday, March 20, at the MCI Center in Washington, D.C. Members of the NIH Recreation and Welfare Association can purchase tickets for \$8 and \$15. Regular prices are \$11 and \$22. Proceeds benefit the NIH Charities. For more information or to buy tickets, call 301-496-6000.

NLM Hosts Exhibit on Greek Medicine

The History of Medicine Division of the National Library of Medicine (NLM) features a new exhibit called "I Swear By Apollo Physician: Greek Medicine from the Gods to Galen." The exhibit presents early edition texts and medieval manuscripts by such physicians as Hippocrates, Galen, and Aristotle. Come learn about the influence of Classical Greece on modern medicine. The exhibit will be on display until April 26. For more information, call 301-594-5983 or visit <http://www.nlm.nih.gov>.

NIH CALENDAR OF EVENTS*

March 5
WFLC Faces and Phases of Life Seminar Series: *Developing Competitive Resumes for Federal Jobs and the Private Sector*, 12–2 p.m., Room 6C6, Building 31, NIH, free, preregistration required. For more information or to preregister, call 301-435-1619.

March 6
NIH Wednesday Afternoon Lecture Series: *Neural Mechanisms of Habit Formation: Plasticity in Cortico-basal Ganglia Loops* by Ann M. Graybiel, Ph.D., Massachusetts Institute of Technology, 3 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Hilda Madine at 301-594-5595.

March 8
NIH Director's Seminar Series: *Brain Imaging in Mood Disorders* by Wayne C. Drevets, M.D., National Institute of Mental Health, noon, Wilson Hall, Building 1, NIH, free and open to the public. For more information, call 301-496-1921.

March 10
FAES Music Series: *Altenberg Trio*, 4 p.m., The Washington Hebrew Congregation, 3935 Macomb Street, NW, Washington, DC, \$25 (\$10 for children). Tickets will be available at the door on the day of the performance. For more information, call 301-496-7975.

March 11
NIH Wednesday Afternoon Lecture Series: SPECIAL MONDAY LECTURE: *Exploring the Scientific Basis of Complementary and Alternative Medicine* by Stephen E. Straus, M.D., National Institute of Allergy and Infectious Diseases, 3 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Hilda Madine at 301-594-5595.

2001–2002 Manchester String Quartet Season: *Ravel's Quartet in F Major*, 12:30 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Sharon Greenwell at 301-496-4713.

March 12
WFLC Faces and Phases of Life Seminar Series: *Anger and Conflict Management, Part 1: Spinning Out of Control—The Cycle of Anger* by Michael Bowler, Ph.D., and Eva Chen, M.S.W., noon–1 p.m., Room 6C6, Building 31, NIH, free and open to the public, pre-registration required. For more information or to pre-register, call 301-435-1619.

March 13
NIH Wednesday Afternoon Lecture Series: *Ideas on How Circadian Rhythm is Reciprocally Linked to Metabolism* by Steven L. McKnight, Ph.D., University of Texas Southwestern Medical Center, 3 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Hilda Madine at 301-594-5595.

National Library of Medicine History of Medicine Seminar Series: *Breaking Down Cancer: Baby Boomers and Gene Medicine* by Dr. G. Terry Sharrer, 2–3:15 p.m., Conference Room B, Building 38, NIH, free and open to the public. For more information, call 301-402-8878.

March 16

Montgomery County Women’s Fair: Successful Women: Personally and Professionally, 8 a.m.–4:30 p.m., Montgomery Blair High School, 51 University Blvd. East, Silver Spring, \$15 if registered by March 8, \$20 for on-site registration. For more information, call 301-949-2055 or visit <http://www.mcwomensfair.org>.

March 19

WFLC Faces and Phases of Life Seminar Series: Anger and Conflict Management, Part 2: Pulling Yourself Together—10 Principles of Anger Reduction by Michael Bowler, Ph.D., and Eva Chen, M.S.W., noon–1 p.m., Room 6C6, Building 31, NIH, free and open to the public, preregistration required. For more information or to pre-register, call 301-435-1619.

March 20

NIH Wednesday Afternoon Lecture Series: Redox Reactions in Antigen Processing by Peter Cresswell, Ph.D., Yale University School of Medicine, 3 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Hilda Madine at 301-594-5595.

March 21

Association for Women in Science, Bethesda chapter: Breaking the Glass Ceiling: A Networking Success Story by Jozetta Todd, Abbott Laboratories, 4:30–6:30 p.m., The Cloister, Chapel, NIH, free and open to the public. For more information, call Nancy Sorden at 301-594-2024.

March 24

2001–2002 FAES Music Series: Richard Stoltzman, clarinet, and John Peter Stoltzman, piano, 4 p.m., Congregation Beth El, 8215 Old Georgetown Road, Bethesda, \$25 (\$10 for children). Tickets will be available at the door on the day of the performance. For more information, call 301-496-7975.

March 25

2001–2002 Manchester String Quartet Season: Debussy’s Quartet in G Minor, 12:30 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Sharon Greenwell at 301-496-4713.

March 27

2001–2002 NIH Wednesday Afternoon Lecture Series: Epigenetic Regulation in T Cell Development by Dan R. Littman, M.D., Ph.D., New York University Medical Center, 3 p.m., Masur Auditorium, Building 10, NIH, free and open to the public. For more information, call Hilda Madine at 301-594-5595.

WFLC Faces and Phases of Life Seminar Series: Anger and Conflict Management, Part 3: Keeping Yourself Together—Core Coping Strategies by Michael Bowler, Ph.D., and Eva Chen, M.S.W., noon–1 p.m., Room 6C6, Building 31, NIH, free and open to the public, preregistration required. For more information or to pre-register, call 301-435-1619.

**Information subject to change. Call to confirm your event.*

OTHER NEWS AND ACTIVITIES OF INTEREST

Dancing at Glen Echo Park

Grab your dancing shoes and come out to Glen Echo Park for weekend dances. You can stomp your feet at a folk dance, do a little swing, or spend a romantic afternoon at a tea dance. Dances take place on Fridays, Saturdays, and Sundays and feature everything from ballroom to contra dancing. Enjoy music ranging from Cajun and zydeco to rhythm and blues. Tickets cost \$5 to \$10, depending on the day and time. Instruction is available for beginners, except on Sunday nights. Dance instruction is included in the cost of admission.

While the historic Spanish Ballroom undergoes renovations, dances will take place in the restored Bumper Car Pavilion. Glen Echo Park is located at 7300 MacArthur Boulevard, at the intersection between MacArthur Boulevard and Goldsboro Road, in Glen Echo, Maryland. For more information, call 301-309-0895 or 301-492-6282.

Literary Luncheon Series at Strathmore

The Fourteenth Annual Literary Luncheon Series continues at Strathmore Hall Arts Center with “Lying to Tell the Truth” on March 21. Internationally published author Barbara Esstman will discuss how to develop an idea into a published novel. The last lecture of the series will be held on April 18. During this lecture, biographer Jan Pottker will discuss the relationship between Jacqueline Kennedy Onassis and her mother in “Janet and Jackie: the Story of a Mother and Her Daughter, Jacqueline Kennedy Onassis, a Biography of Janet Auchincloss, mother of Jacqueline Kennedy Onassis.”

Lectures begin at 11:30 a.m., followed by a luncheon at 12:30 p.m. Cost is \$17 for general admission and \$15 for Strathmore members. If you do not want lunch, admission is \$5 less. Strathmore is located at 10701 Rockville Pike in North Bethesda, Maryland. For more information, call 240-777-0020.

Diversity at BAPA's Imagination Stage

BAPA's Imagination Stage brings two diverse productions to families in March. *Abiyoyo*, which is based on a South African folk story, combines words, music, magic, and puppets to tell the story of a little girl who saves her community from the giant Abiyoyo. Families may recognize the story because it appears in a Montgomery County Public School core book. *Abiyoyo* runs until March 17. Performances are held on Saturdays and Sundays at 12:30 and 3 p.m.

Beginning March 23, BAPA's Imagination Stage presents *Aladdin*, a classic from the *Arabian Nights*. The production features music by Turkish composer Fahir Atakoglu. *Aladdin* runs through June 16. Performances are held on Saturdays at 3 p.m. and on Sundays at 12:30 and 3 p.m.

Tickets for both plays are \$6.50 general admission and \$5.50 for groups of 10 or more. For more information or to purchase tickets, call 301-881-5106. BAPA's Imagination Stage is located at White Flint mall on the second level, next to Bloomingdale's, in Rockville, Maryland.

Art and Music at Glenview Mansion

Come spend a Sunday afternoon with music and art at Glenview Mansion. Free concerts are held at 2 p.m. (except where noted) in the Conservatory on the first floor. The following concerts are scheduled for this spring:

March 17	The Swanns—Jazz and R&B 1:30–2 p.m. and 2:30–3 p.m.
April 7	George and Marilyn Minter—Broadway Favorites
May 5	Rockville Community Chorus—Rockville Singers
June 2	Namu Lwanga

While you're at the Mansion enjoying music, stop by the Rockville Student Art Show. The show begins with a reception on March 17, from 1 to 4 p.m., and runs through April 2. Glenview Mansion is located in Rockville Civic Center Park at 603 Edmonston Drive in Rockville, Maryland. For more information, call 301-309-3057.

Montgomery County Parenting Classes

Bethesda Youth Services announces its spring parenting education schedule. Classes are free, but registration is required. Child care is provided. Call 301-229-1347 to register.

The following classes will be offered this spring:

Step Parenting: The Challenges and Rewards of Blended Families

March 7, 7:30–9 p.m.

Davis Library

6400 Democracy Boulevard, Bethesda

Raising Responsible Children: Chores, Allowance, Family Commitments

March 13, 7:30–9 p.m.

Coffield Community Center

2450 Lyttonsville Road, Silver Spring

Parenting Teens

Tuesdays, April 16–May 21, 7–8:30 p.m.

Ayrlawn YMCA

5650 Oakmont Avenue, Bethesda

Communicating Success to Children

Thursdays, April 18–May 23, 7–8:30 p.m.

Ayrlawn YMCA

5650 Oakmont Avenue, Bethesda

Grease at Olney Theater

The Olney Theater kicks off its 2002 season with the ever-popular *Grease*. Join Danny, Sandy, greasers and Pink Ladies, and the rest of the class of 1959 in their final year at Rydell High. *Grease* runs through March 31. Performances are held on Tuesdays at 7:30 p.m., Wednesdays through Saturdays at 8 p.m., and Sundays at 7:30 p.m. Olney Theater offers matinee performances every second Thursday and on Saturdays and Sundays at 2 p.m. Tickets range from \$25 to \$29, depending on the day and time of the performance, and some Tuesday tickets are \$10 for persons under age 30. For more information or to purchase tickets, call the box office at 301-924-3400.

Household Hazardous Waste Drop-Offs Set

Montgomery County announces its new schedule for household hazardous waste. Residents can now safely dispose of household hazardous waste throughout the year at various county sites. The following materials will be accepted:

- Liquid, oil-based paints
- Solvents
- Paint thinners
- Batteries containing nickel, cadmium, mercury, silver oxide, lead, or lithium
- Mercury and items containing mercury, such as thermostats and thermometers
- Pesticides and herbicides
- Photochemicals
- Pool chemicals
- Flammable liquids
- Gas and gas-oil mix
- Fluorescence tubing

Radioactive materials, biomedical waste, asbestos, explosives, and compressed gases other than propane or butane are not accepted. Montgomery County also will not accept non-residential or commercial waste. Residents should not bring latex paint; this is not a hazard, and disposing of it as hazardous material is very expensive. For more information, call the Montgomery County Division of Solid Waste Services at 301-840-2370 or visit <http://mcrecycles.org>.

Drop-offs are from 10 a.m. to 2 p.m. at the following locations and dates:

March 3	Shady Grove Solid Waste Transfer Station Route 355 and Shady Grove Road, Rockville
March 10	Silver Spring Parking Lot #2 Georgia Avenue and Spring Street (behind the Maryland-National Capital Park and Planning Commission), Silver Spring
April 14	Shady Grove Solid Waste Transfer Station
April 21	Upcounty Regional Services Center Middlebrook Road and Route 118, Germantown
May 5	Shady Grove Solid Waste Transfer Station
May 18	Briggs Chaney Park and Ride Lot East of Route 29 at Gateshead Manor Way, Fairland
June 2	Shady Grove Solid Waste Transfer Station
June 22	Westland Middle School Massachusetts Avenue, west of Little Falls Parkway, Bethesda

Flower Shows at Brookside Gardens

Brookside Gardens presents three flower shows this spring. The Friends of Brookside Gardens will hold an Orchid Festival on March 16 and 17. The Camellia Society of the Potomac Valley will host a show and sale the following weekend, on March 23 and 24. And the Washington Daffodil Society Show follows on April 13 and 14. Admission is free to all shows. Brookside Gardens is located at 1800 Glenallan Avenue in Wheaton, Maryland. For more information, call 301-949-8230.

Rockville Holds Spring Festival

The city of Rockville celebrates spring with a day of family fun on Saturday, March 30, at Civic Center Park. From 10 to 11:30 a.m., children aged 9 years and younger can enjoy games, entertainment, activities, and prizes at an Eggstravaganza (rain date March 1). The Eggstravaganza features a bunny trail maze, an egg hunt, pictures with Peter Cottontail, and more. At 11:30 a.m., the whole family can enjoy giveaways, kite flying, face painting, and more at the 4th Annual Family Fun and Kite Fest. The fun lasts until 2 p.m. For more information, call 301-309-3330.

TRY THIS WEB SITE: <http://www.nidcd.nih.gov/healthyhearing/index.htm>

Healthy Hearing 2010, which aims to help people improve and protect their hearing, is part of a national health promotion and disease prevention initiative, Healthy People 2010. Visitors to the Healthy Hearing 2010 Web site can learn about the specific objectives of Healthy Hearing 2010, upcoming events, educational materials that are available to the public, and how to participate in the campaign. The site also provides links to other agencies participating in Healthy Hearing 2010, along with information provided by these agencies.

VOLUNTEER OPPORTUNITIES

Healthy Males Needed

The National Institute on Alcohol Abuse and Alcoholism (NIAAA) seeks healthy men aged 40–59 for cognitive and psychological studies. No medication is involved. Compensation will be provided. For more information, call 301-594-9950.

Healthy Families Needed

NIAAA seeks parents and their healthy adolescents, aged 12–17, for a study involving an interview and a brain scan. No medication is involved. Participants will receive compensation. For more information, call 201-594-9950.

NIMH Seeks Adults

The National Institute of Mental Health needs college-educated, middle-aged adults for a two-day outpatient study. The study involves blood draws and routine clinical, neurological, and cognitive procedures. A stipend is available. For more information, call 301-435-8980.

Speech Disorder Study

The National Institute of Neurological Disorders and Stroke seeks healthy children, aged 5–17, for a study on speech disorders. Children may be eligible if they have normal speech and hearing and if English is their first language. The study involves four to five outpatient visits, and compensation is provided. For more information, call 301-496-9367.

The OCL Update is available on our Web site at <http://ocl.od.nih.gov>. If you would rather view this document online and not receive a printed version, please contact the OCL office at 301-496-3931 or send us an e-mail at jh69z@nih.gov. If you would like to list an upcoming event of interest to the local community, call Terry LaMotte at Palladian Partners, OCL support contractor, at 301-650-8660, or e-mail at tlamotte@palladianpartners.com.
